Two Laws

- H.R. 3590 - Patient Protection and Affordable Health Care Act of 2010 (PPACA)
- H.R. 4872 - Health Care and Education Reconciliation Act of 2010 (HCERA)
- Together = Health Care Reform (HCR)

What's Here Now...

- **Temporary High Risk Pool**
- **Dependents through age 26**
- **Tax credit for small employers**
- **Early retiree reinsurance program**

Temporary High Risk Pool

- Health coverage for individuals with pre-existing conditions
- Must have been uninsured for at least 6 months
- Provides lower premium rates than current high risk pools
- Maximum cost-sharing limited to current HSA limit (\$5950/individual; \$11,900/family in 2010)
- Original implementation date was July 1, 2010; current date is August 1, 2010

Temporary High Risk Pool (cont'd)

- Texas has declined offer to operate high risk pool as authorized by PPACA
- Use Federal High Risk Pool
- Texas Health Insurance Risk Pool website provides information on the national high risk pool and a link to Federal High Risk Pool website. See www.txhealthpool.org

Comparison Federal & Texas High Risk Pools

- Federal premiums will be ~ 50% of premiums for Texas high risk pool
- Federal pool has no pre-existing condition waiting period
- Texas pool has a 12-month pre-existing condition waiting period, reduced by insurance coverage in prior year

Dependents Through age 26 *B*

- Tax Free Health Coverage only
- No change for Tax Dependent status
- **Includes** children; step children; adopted children; foster children; children you are not supporting financially; children who do not live with you; married children.

Tax Credit - Small Employers *B*

- 25 or fewer FTEs with average annual wage less than \$50,000
- Company must pay at least ½ of employees' premiums
- From 2010 through 2013, tax credits up to 35% of health care costs (25% for exempt organizations).
- Starting in 2014, employers must purchase coverage through state health exchange to receive credit, and credits available for not more than 2 years.
- Tax credits phase-out if more than 10 FTEs and/or average wages exceed \$25,000/year.

Early Retiree Reinsurance Program

- Retired employees, 55 or older, not eligible for Medicare
- Up to \$5 billion funded by federal government
- Program will reimburse eligible health plan for 80% of claims in a plan year that exceed \$15,000 but do not exceed \$90,000 (maximum reimbursement is \$60,000)
- Applications will not be accepted after \$5 billion pool is exhausted

Plan years that begin on or after September 23, 2010

- **Many changes for fully insured and self-funded plans**
- **Distinctions between grandfathered and non-grandfathered health plans**

What's a Grandfathered Plan?

- Any group health plan or individual coverage existing on March 23, 2010.
- Interim Final Rule (“IFR”), published on June 14, 2010, lists changes that will cause loss of grandfathered status.
- Grandfathered status applies separately to each benefit package.

Grandfathered and Non-Grandfathered Plans

- No lifetime limits for “essential health benefits”
- No annual limits for “essential health benefits” (except as determined by HHS – \$750K < 9/23/11; \$1.25M < 9/23/12; \$2M < 9/23/13; None after 1/1/14)
- Pre-existing condition exclusions for children under 19 are eliminated
- Rescission prohibited, except for fraud or intentional misrepresentation
- Dependent coverage extended through age 26

Grandfathered and Non-Grandfathered Plans (cont'd)

- Health plans must report percentage of premium dollars for clinical services
 - if less than 85% for large plans; or,
 - 80% for individual and small plans;
 - must provide rebates to consumers in 2011
- Self-insured & self-funded plans are exempt

Non-Grandfathered Plans

- IRC section 105(h) testing for both insured and self-funded plans – 4 tests
 - Benefits offered
 - Waiting period to enroll
 - Minimum hours required
 - Employer contribution level
- Internal and external claims appeal process must be established
- Discrimination based on salary prohibited

Non-Grandfathered Plans (cont'd)

- Emergency services must be covered at in-network cost-sharing, without prior authorization
- Individuals can designate primary care physician
- May not require authorization or referral for OB-GYN services
- First \$ coverage for evidence-based preventive care (e.g. well child care, immunizations, etc.)

Grandfathered Plans - Permissible Changes

- Addition of new employees and family members
- Changes, including increases, to employee premiums
- Changes required to comply with federal or state law
- Changes to voluntarily comply with PPACA
- Change of third-party administrator

Grandfathered Plans – Permissible Changes (cont'd)

- HHS has requested comments on whether the following changes should impact “grandfathered” status:
 - Changes to plan structure, e.g., self-funded to fully insured
 - Changes to provider networks
 - Changes to prescription drug formularies

Grandfathered Plans – Impermissible Changes

- Change in insurance policy, certificate or contract of insurance, even if the insurance product was offered in the market prior to March 23, 2010.
- Elimination of benefits to diagnose or treat a condition

Grandfathered Plans – Impermissible Changes (cont'd)

- Increase in percentage cost-sharing requirement (coinsurance) by any amount above March 23, 2010 level
- Increase in deductible or out-of-pocket maximum by more than medical inflation, plus 15%

Grandfathered Plans – Impermissible Changes (cont'd)

- Increase in co-payment by more than \$5 (adjusted for medical inflation) or medical inflation plus 15%, whichever is greater
- Decrease in employer contribution rate for any tier of coverage by more than 5% below rate on March 23, 2010

Grandfathered Plans - Impermissible Changes (cont'd)

- Changes in annual limits:
 - If no previous limit, then cannot impose annual limit
 - If previous lifetime limit (but no annual limit), annual limit cannot be lower than lifetime limit
 - If previous annual limit, then cannot decrease annual limit

Grandfathered Plans – Administrative Requirements

- Plan must include a statement in plan materials delivered to participants that the insurer or plan “believes” that it is grandfathered under PPACA.
- Plan must also provide the plan administrator’s contact information, as well as contact information for the DOL (if ERISA plan) or HHS (if non-ERISA plan).
- IFR provides model language that can be used to satisfy disclosure requirement.

Grandfathered Plans – Transition Rules

- Changes made prior to March 23, 2010 will not affect grandfathered status.
- If plan changes were made after March 23, 2010 but before issuance of the IFR and “only modestly exceed” the limits set by the IFR, the agency will “take into account good-faith efforts to comply with a reasonable interpretation of [PPACA]” in deciding whether grandfathered status is affected.
- If more significant changes were adopted after March 23, 2010 but before issuance of IFR which exceed or contravene limits set in IFR, the insurer or plan can revoke the change by the first plan year on or after September 23, 2010 and not lose grandfathered status.
